Terms and Definitions

TERMS RELATED TO ORGANIZATION AND LEADERSHIP

Management System

- *Set of interrelated or interacting elements of an organization to establish policies and objectives and processes to achieve those objectives*

Environmental Management System

- *Part of the management system used to manage environmental aspects, fulfil compliance obligations, and address risks and opportunities*

Environmental Policy

- *Intentions and direction of an organization related to environmental performance, as formally expressed by its top management*

Organization

- *Person or group*

TERMS RELATED TO ORGANIZATION AND LEADERSHIP

Top Management

- *Person or group of people who directs and controls an organization at the highest level*

Interested Party

- *Person or organization that can affect, be affected by, or perceive itself to be affected by a decision or activity*

TERMS RELATED TO **PLANNING**

Environment

- *Surroundings in which an organization operates, including air, water, land, natural resources, flora, fauna, humans and their interrelationships*

Environmental Aspect

- *Element of an organization's activities or products or services that interacts or can interact with the environment*

Environmental Condition

- *State or characteristic of the environment as determined at a certain point in time*

Environmental Impact

- *Change to the environment, whether adverse or beneficial. wholly or partially resulting from an organization's environmental aspects*

TERMS RELATED TO PLANNING

Objective

- *Result to be achieved*

Environmental Objective

- *Objective set by the organization consistent with its environmental policy*

Prevention of Pollution

- *Use of processes, practices, techniques, materials, products, services or energy to avoid, reduce or control (separately or in combination) the creation, emission or discharge of any type of pollutant or waste, in order to reduce adverse environmental impacts*

Requirement

- *Need or expectation that is stated, generally implied or obligatory*

TERMS RELATED TO SUPPORT AND OPERATION

Competence

- *Ability to apply knowledge and skills to achieve intended results*

Documented Information

- *Information required to be controlled and maintained by an organization and the medium on which it is contained*

Life Cycle

- *Consecutive and interlinked stages of a product (or service) system, from raw material acquisition or generation from natural resources to final disposal*

TERMS RELATED TO **SUPPORT AND OPERATION**

Outsource

- *Make an arrangement where an external organization performs part of an organization's function or process*

Process

- *Set of interrelated or interacting activities which transforms inputs into outputs*

TERMS RELATED TO PERFORMANCE EVALUATION AND IMPROVEMENT

Audit

- *Systematic, independent and documented process for obtaining audit evidence and evaluating it objectively to determine the extent to which the audit criteria are fulfilled*

Conformity

- *Fulfilment of a requirement*

Nonconformity

- *Non-fulfilment of a requirement*

Corrective Action

- *Action to eliminate the cause of a nonconformity and to prevent recurrence*

TERMS RELATED TO PERFORMANCE EVALUATION AND IMPROVEMENT

Continual Improvement

- *Recurring activity to enhance performance*

Effectiveness

- *Extent to which planned activities are realized and planned results achieved*

Indicator

- *Measurable representation of the condition or status of operations, management or conditions*

Monitoring

- *Determining the status of a system, a process or an activity*

TERMS RELATED TO PERFORMANCE EVALUATION AND IMPROVEMENT

Measurement

- *Process to determine a value*

Performance

- *Measurable result*

Environmental Performance

- *Performance related to the management of environmental aspects*

Context of the organization

Context of the organization

4.1 Understanding the organization and its context

```
graph TD; A[4.1 Understanding the organization and its context] --> B[4.2 Understanding the needs and expectations of interested parties]; B --> C[4.3 Determining the scope of the environmental management system]; C --> D[4.4 Environmental management system];
```

The diagram illustrates a four-step process for establishing the context of an organization. It consists of four colored rectangular boxes arranged in a descending staircase pattern from top-left to bottom-right. The first box is orange, the second is grey, the third is yellow, and the fourth is blue. Each box contains a step number and a description. Downward-pointing arrows connect the bottom of one box to the top of the next box, indicating a sequential flow.

4.2 Understanding the needs and expectations of interested parties

4.3 Determining the scope of the environmental management system

4.4 Environmental management system

Leadership

Leadership

5.1 Leadership and commitment

5.2 Environmental policy

5.3 Organizational roles, responsibilities and authorities

Planning

The background is composed of several geometric shapes. A large, dark blue shape occupies the top-left and middle-left portions. A light blue, rounded shape is in the top-right. A solid blue shape is in the middle-right. The bottom half of the image is a horizontal band with a color gradient from light green on the left to a darker green on the right.

Planning

6.1 Actions to address risks
and opportunities

6.2 Environmental objectives
and planning to achieve them

Support

Support

7.1 Resources

7.2 Competence

7.3 Awareness

7.4 Communication

7.5 Documented information

Operation

Operation

8.1 Operational
planning and
control

8.2 Emergency
preparedness
and response

Performance evaluation

Performance evaluation

9.1 Monitoring,
measurement, analysis
and evaluation

9.2 Internal audit

9.3 Management review

Improvement

Improvement

10.1 General

10.2 Nonconformity and
corrective action

10.3 Continual improvement

The background consists of a dark blue field with a large, light blue semi-circle on the right side. A vertical dark blue bar is on the far right, and a thin dark blue vertical line is on the far left.
