

SAFETY SIGNS

PREVENT INJURY & ENSURE STAFF SAFETY!

Without Safety Signs, many employees would lack the necessary direction in times of crisis and employers may find themselves in significant legal difficulties if any accidents were to arise as a result.

THE IMPORTANCE OF SAFETY SIGNS

Safety Signs are crucial in any work environment. The primary importance of displaying Safety Signs is to prevent injury and ensure staff and visitors are well aware of the possible dangers and hazards ahead in certain situations and/or environments. Without signs, many employees would lack the necessary direction in times of crisis, and employers might find themselves in significant legal difficulties if any accidents were to arise as a result.

By ensuring the workplace is sufficiently well signed, you can help protect your staff and visitors to the site, particularly members of the public, against the possible dangers that may be unnoticed - leading to less industrial accidents and reduced risk to employees and passerby's.

At Brady we have the widest range of legends for you to choose from to ensure you can create a safe, well identified facility. Our range of Safety Signs are designed to meet Australian Standard 1319 which outlines specific parameters for safety signs in an occupational environment.

BRADY SIGNS VS. COMPETITOR SIGNS

At Brady Australia, we specialise in making premium quality and compliant safety signs in thousands of various legends, sizes and substrates. We pride ourselves as the market leader with the broadest range, and together with over 30 years of experience, we offer high performance signage.

As there are many other sign makers in the industry, we cannot control where signs are purchased - however we have made it easier for our customers to distinguish between a Brady sign and a copied sign. Below is a picture of a Brady sign, here we have noted some differences you will notice from a visual perspective, as compared to our competitors.

All our signs are printed with ink that meets the needs for high scratch resistance and outdoor signage display.

Articulate and clean, all signs received will have no scratches, specks of paints or scuff marks.

Material is of high quality - polypropylene is UV stabilised, lasting up to 5 years outdoors.

Our printed colour is bright, vibrant and consistent.

Pictograms are designed to meet the International Organisation of Standardisation; detailed and recognisable to communicate hazards and actions without the needs for words.

Crisp lines, text, and images.

The above shows Brady signs vs competitor's signs after four years exposure to the elements.

- Competitor's 'Hand Protection' sign has ink that has run
- Competitor's 'No Smoking In This Area' sign has colours that have faded

UNDERSTANDING AS 1319

This standard sets out the requirements for the design and use of safety signs intended for use in the occupational environment. These signs are designed to regulate and control safety related behaviour, to warn of hazards and to provide emergency information including fire protection information.

CHOOSING SIGNS TO SUIT YOUR APPLICATION

Complying with Australian Standards

MANDATORY SIGNS

These signs specify an instruction that must be carried out. Symbols (or “pictograms”) are depicted in white on a blue circular background. Sign wording, if necessary, is in black lettering on a white background.

PROHIBITION SIGNS

These signs that specify behaviour or actions which are not permitted. The annulus and slash is depicted in red over the action symbol in black. Sign wording, if necessary, is in black lettering on a white background.

WARNING SIGNS

These signs warn of hazards or a hazardous condition that is not likely to be life-threatening. The hazard symbol is black on a yellow background and a triangle is depicted around the hazard symbol. Sign wording, if necessary, is in black lettering on a yellow background.

DANGER SIGNS

These signs provide warning when a hazard or a hazardous condition is likely to be life-threatening. The word “Danger” is featured inside a red oval inside a black rectangle.

EMERGENCY INFORMATION SIGNS

These signs indicate the location of, or directions to emergency related facilities (exits, first aid, safety equipment, etc). Feature a white symbol and/or text on a green background.

FIRE SIGNS

Advise the location of fire alarms and fire fighting equipment. They contain a white symbol and/or text on a red background.

GENERAL INFORMATION SIGNS

These signs are not referred in AS1319, however are available due to popular demand. They communicate information of a general nature and often refer to Housekeeping, Company Practices and Logistics.

VIEWING DISTANCE GUIDE

Signs should be large enough to view without straining the eyes when communicating safety messages to employees and/or visitors. Therefore, choosing the size of a sign is more than fitting it to the space you have available.

In order to comply with AS 1319, you must consider the environment, lighting and viewing distance – these factors will determine the size of sign required to suit your application.

The recommended minimum sizes as per AS 1319 are as follow. For a pictogram and worded sign in a factory or work environment, where lighting is good and the sign will be mounted in a reasonably prominent position:

- Pictogram size is to be at least 15mm per metre of viewing distance
- Text size:
 - Upper case: 5mm per metre of viewing distance
 - Lower case: 4mm per metre of viewing distance

For Brady Safety Signs, please use the below diagram as a guide.

SIGN MATERIAL GUIDE

POLYPROPYLENE

Our polypropylene material is highly recommended for outdoor use. It is UV stable and resists fading and cracking outdoors for three to five years. It is non-toxic and is Food Contact approved, conforming to AS 2070 (Plastic Materials For Food Contact and Use). Enduring temperatures of -40°C to 160°C, this polypropylene is fully recyclable and is an environmentally responsible alternative to PVC. Not only is the poly we use in our signs made from over 50% recycled material, but it is also certified as Carbon Neutral. All signs are 1.4mm thick with rounded corners and four corner mounting holes.

SELF-ADHESIVE POLYPROPYLENE

These signs are our standard polypropylene with an adhesive backing. An industrial grade pressure sensitive adhesive backing has been applied to allow easy installation of signs by adhering to most flat, clean and dry surfaces in interior and protected exterior situations. It has a good temperature rating of up to 100°C with excellent initial tack and long-term adhesion properties.

SELF ADHESIVE VINYL

This durable vinyl features a fully self-adhesive backing so you can adhere it to virtually any clean, dry surface. Our vinyl is manufactured to perform under a range of varying temperatures (-40°C to 80°C) and humidity. Well suited to curved or rough surfaces, just peel off the release paper and quickly apply. An expected indoor lifetime of five to eight years, our self-adhesive vinyl offers a long-term solution that is also highly resistant to fading, shrinking and chemicals.

STEEL (METAL)

Our metal substrate is guaranteed to withstand temperatures of -40°C to 80°C and has an outdoor life expectancy of five to eight years. This material complies with two steel manufacturing standards AS/NZS 1365 and AS 1397. The 0.6mm thick material holds up well in windy conditions and is well suited to the outdoors. All metal signs come with rounded corners and four corner mounting holes.

DEFINITIONS

Upper Temperature Service Limit:

Temperature above which material will fail in long term use. Information available on specific Material Technical Data Sheets.

Minimum Application Temperature:

Lowest temperature at which you can apply the label to a clean, dry, smooth surface. Information available on specific Material Technical Data Sheets.

Average Outdoor Durability:

Average expected outdoor life of product will depend on user definition of failure, climatic conditions, mounting techniques, material colour, and printing inks used.

Chemical Resistance:

Chemical Resistance information can be obtained from a specific material's Technical Data Sheets.

CORFLUTE

Manufactured from 3mm corrugated plastic, it is a lightweight, low cost and durable material. More rigid than solid polypropylene but flexible enough to mount on slightly curved surfaces. Ideal for short-term outdoor use, especially for temporary applications, such as construction and building sites.

BRADY ULTRATUFF - 25 YEAR GUARANTEE

For signs that will be exposed to abrasive chemicals, extensive UV, or the likelihood of graffiti, we highly recommend Brady UltraTuff signs. UltraTuff signs have a protective overlamine which is manufactured from a high-grade polyester, with great abrasion resistance and good resistance to UV radiation and weathering exposure. It has excellent resistance to chemicals and solvents and is designed for use in harsh environments to protect the sign's message. The UltraTuff overlamine can also be applied to any Brady sign. It is ideal for use as an anti-graffiti protective overlamine, although it is recommended to ensure the paint/ink is removed within 24 hours. Brady UltraTuff signs are guaranteed for 25 years.

RETRO-REFLECTIVE ALUMINIUM AND STEEL

Retro-reflective options are available in Steel or Aluminium. Aluminium is manufactured to comply to AS/NZS 1734 and is ideal for use where resistance to corrosion and strength are a necessity. Our Steel signs are manufactured in accordance with AS/NZS 1365 and AS 1397 and are one of our more robust sign materials, perfect for outdoor use. We only use Retro-Reflective material which complies to AS/NZS 1906.1, available in Class 1 and Class 2 options. Class 1 is the brightest, most durable retro-reflective material available.

BRADYGLO™ LUMINOUS

Brady offers an innovative solution for emergency and evacuation signage in the workplace. Our BradyGlo™ luminous material B-324, is available in polypropylene or self-adhesive polyester. BradyGlo™ is a non-toxic and non-radioactive material. It takes only five minutes of ambient fluorescent light to charge and will glow consistently for 10+ hours. This material meets and exceeds several international standards for safety and glow time. Recommended for internal use only.

MAGNETIC NUMBER KITS FOR USE ON METAL BOARDS

Magnetic numerals for use on Metal Safety Record Boards as per above. Each kit contains 3 each of 0 through to 9.

Size (mm) Height	Part No. White on Green	Part No. Green on White	Part No. Black on White
Size A Kit (53mm)	832604	832607	844329
Size B Kit (38mm)	832605	832608	-
Size C Kit (20mm)	832606	832610	-

*White on black numbers, 53mm size only.

ELECTRICAL SHOCK SURVIVAL SIGN

Display this Electric Shock Survival Sign in areas where your employees can effectively use it in the event of an emergency. Reflective signage is suitable for dark areas such as mines. Manufactured to comply with Australian Resuscitation Council Guidelines. Prompts your staff on electric shock survival techniques*.

Part No.	Dimension (W x H)	Material
833590	450 x 600mm	Poly
835989	450 x 600mm	Metal
851258	450 x 600mm	C1 Ref. MTL
851259	450 x 600mm	C2 Ref. MTL
851738	600 x 900mm	Metal

* It is recommended that this sign is used in conjunction with a formal first aid training course.

ULTRATUFF SIGNS

Protective Laminate

Graphics Printed on rigid metal or polypropylene

25 YEAR GUARANTEE

ULTRATUFF SIGNS:

- Guard Against Abrasive Chemicals
- Have Increased UV Resistance
- Are Anti-Graffiti
- Reduce Replacement Time and Costs

UltraTuff signs are guaranteed for 25 years!

UltraTuff laminate is available as an extra for all Brady metal and poly signs.

Demand Brady UltraTuff signs by name when your site or facility requires longer lasting, quality signage.

LIGHT THE WAY TO SAFETY WITH BRADY EXIT SIGNS

Choose luminous signs where exits are not immediately visible to the occupant. Luminous signs are reactivated automatically by exposure to light and are completely safe – non-toxic and non-radioactive. Brady's range of luminous exit and evacuation signs are made from the latest in photoluminescent technology. The material was designed to provide safe LLL (Low-Level-Lighting) egress pathway to ensure the safe evacuation of employees during emergencies and in blackout situations. The BradyGlo™ material provides excellent glow times of 10+ hours without any mechanical or electrical power source after only five minutes charge.

IMPORTANT COMPLIANCE INFORMATION

Exit Signs - AS1319:1994 states that emergency information signs are required to indicate the location of, or direction to, emergency related facilities such as exits. Our exit signs are ideal to help direct people to the nearest exit in emergency situations. Available either in Standard signs white on green or BradyGlo™ with text in photoluminescent.

BRADYGLO LUMINOUS EXIT FLOOR SIGNS

GLOW-IN-THE-DARK TAPES (B-324)

STANDARD PACKAGE: 1 ROLL OF 4.5M

Size	Part No.			
50mm	76430	90971	90973	76432
75mm	76431	90972	90974	76433

GLOW-IN-THE-DARK FOOTPRINTS AND ARROWS (B-324)

Glow-in-the-Dark Phosphorescent Arrows.

Glow-in-the-Dark Phosphorescent Footprints.

Part No.	Description	Dimensions
93275	Arrows (Roll 100)	76mm
55358	Footprint Left (Ea)	305mm
55359	Footprint Right (Ea)	305mm

GLOW-IN-THE-DARK ANTI SKID TAPE (B-916)

Anti Skid Cleat

Roll

Part No.	Description	Dimensions
99048	Tape Roll	25mm x 18m
99049	Tape Roll	50mm x 18m
99050	Tape Roll	100mm x 18m
99052	Tape Roll	150mm x 18m
99055	Cleat 10pk	150mm x 610mm
99054	Cleat 50pk	150mm x 610mm

ECONOMY EXIT LIGHT SIGNS

Complies with AS/NZS 2293. Economical choice. Fixed to mains power with a 2 hour battery backup.

DIMENSIONS SINGLE SIDED: 380 X 160 x 110mm (WxHxD)

DIMENSIONS DOUBLE SIDED: 380 x 190 x 160mm (WxHxD)

Part No.	Description	Legend
842462	Single-Sided	Exit (WorDED)
842463	Double-Sided	Exit (WorDED)
853677	Single-Sided	Run Man (Pictogram)
853678	Double-Sided	Run Man (Pictogram)

QUICKFIT EXIT LIGHT SIGNS

Complies with AS/NZS 2293. Easier installation. Indicate all exits and doors. Fixed to mains power with a 2 hour battery backup.

DIMENSIONS: 374 x 218 x 72mm (WxHxD)

Part No.	Description	Legend
842466	Single-Sided	Exit (WorDED)
842467	Double-Sided	Exit (WorDED)
854963	Single-Sided	Run Man (Pictogram)
854964	Double-Sided	Run Man (Pictogram)

JUMBO QUICKFIT EXIT LIGHT SIGNS

Complies to AS/NZS 2293. 32m viewing distance to suit rooms with high ceilings.

DIMENSIONS SINGLE SIDED: 636 x 305 x 95mm (WxHxD)

DIMENSIONS DOUBLE SIDED: 636 x 305 x 122mm (WxHxD)

Part No.	Description	Legend
859762	Single-Sided	Exit (WorDED)
859763	Double-Sided	Exit (WorDED)
859764	Single-Sided	Run Man (Pictogram)
859765	Double-Sided	Run Man (Pictogram)

WEATHERPROOF EXIT LIGHT SIGNS

Complies with AS/NZS 2293. Rugged UV resistant polycarbonate casing withstands outdoor conditions. Can be wall or ceiling mounted.

DIMENSIONS: 466 x 274 x 155mm (WxHxD)

Part No.	Description	Legend
867958	Single-Sided	Exit (WorDED), Arrow L
867959	Single-Sided	Exit (WorDED), Arrow R
861385	Double-Sided	Exit (WorDED)
867960	Double-Sided	Exit (WorDED), Arrow
867961	Single-Sided	Exit (Run Man), Arrow L
867962	Single-Sided	Exit (Run Man), Arrow R
859761	Double-Sided	Exit (Run Man)
867963	Double-Sided	Exit (Run Man), Arrow

WIND BREAKER CUSTOM CONSTRUCTION SIGN

Move from traditional sign plastering and on to a Wind Breaker Mesh Sign. Present to both your employees and the public your company's professionalism and commitment to Health and Safety.

Tiny holes in the mesh allow for wind to pass through, reducing wind loads. From a short distance, holes are not viewable. Comes complete with eyelets, ready to be hung.

STANDARD PACKAGE: 1

Part No. **S**
871541

Traditionally

Professionally

How To Order Your Wind Breaker Sign

1. Pick Your Signs

Flick through the Safety Signs category, and select the 3 main signs required for your site.

2. Sign Placement

Write down the Part No. of the signs selected into the space provided on the opposite page. By writing into the space provided, this will determine how you would like your selected signs positioned.

3. Mandatory Pictos

Select the Mandatory pictos required for Protective Equipment. For a selection of pictos, see page 25. Write pictos selected in the spaces provided.

4. Site Details

Specify site contact details in the space provided. Should this not be filled out, details will be printed out blank.

5. Site Office

Circle the point you would like the arrow to be directed.

6. Company Logo

Submit a high resolution image (300dpi) of your Company logo in a .TIF or .JPG format. Please send the image to your distributor or email us directly at brady_aust@bradycorp.com and specify Company details relating to job order.

7. Quantity

Please specify in the space provided, the number of Wind Breaker signs required for your site.

8. Contact Details

Fill in your company contact details. Should we have any questions, we can contact you.

9. Placing Order

To complete your order, simply fax or email the completed order form to your distributor.

ORDER FORM AND DIMENSIONS

TO ORDER:

Simply write down the sign legend part numbers in the spaces below, fill in the Site Contact details, send us or your distributor a high resolution image of your company logo, and fax or email back to your distributor.

The diagram shows a vertical rectangular sign with a grey border and orange mounting holes. The layout is as follows:

- Top Section:** A header "MANDATORY SITE SAFETY REQUIREMENTS" above two white boxes, each labeled "Part No." (300 x 450).
- Middle Section:** A large white box (600 x 900) containing four circles, each labeled "Part No.", followed by the text "THIS PROTECTIVE EQUIPMENT MUST BE WORN IN THIS AREA".
- Contact Section:** A white box (150 x 900) labeled "SITE CONTACT DETAILS:" containing fields for "NAME:", "PHONE:", and "AFTER HOURS TELEPHONE:".
- Bottom Section:** A white box (300 x 450) labeled "Part No." on the left, and a white box (150 x 450) labeled "SITE OFFICE" with a double-headed arrow on the right. Below the "SITE OFFICE" box is another white box (150 x 450) labeled "COMPANY LOGO" with a "COMPANY LOGO" label above it.

Dimensions and other details:

- Overall height: 1.5m (indicated by a vertical arrow on the right).
- Overall width: 1m (indicated by a horizontal arrow at the bottom).
- Mounting holes are located at the corners and midpoints of the top and bottom edges.
- A note on the right says: "Circle which direction arrow should point" with an arrow pointing to the "SITE OFFICE" box.
- A note at the bottom right says: "Please supply high resolution logo" with an arrow pointing to the "COMPANY LOGO" box.
- A note at the bottom center says: "Note: Spaces not filled in will be printed blank."
- A "BRADY" logo is visible in the bottom left corner of the sign frame.

BUILDING AND SCAFFOLDING SIGNAGE

Use this simple and effective, UV resistant, 550gsm vinyl to generate company awareness and interest.

This material is tear resistant and is ideal for fitting to scaffolds, wire site fences and/or hanging off buildings and construction sites. Up to 5 years durability, dependent on environment and conditions, with a B1 fire rating. Comes finished with rope and eyelets.

To place your order, simply contact your Brady distributor with the Part No. and send your print ready artwork*, to be forwarded with your request.

*Artwork needs to be supplied at selected banner size. Acceptable artwork format includes EPS, hi-res PDF and JPG. All text is required to be converted to Outlines or Curves, otherwise please supply font. Should you be only submitting a logo, please ensure logo is of high resolution, proofs will be provided prior to print. Artwork charges may apply if print ready format is not supplied.

STANDARD PACKAGE: 1

Part No.	Dimensions
871892	1200 x 1200mm
871893	1200 x 1500mm
871894	1200 x 2400mm

BRADYGLO™ SAFETY SIGNS

BradyGlo™ Safety Signs are the practical solution for unexpected power failures. During a blackout, these signs will glow in the dark and warn employees of hazards. This range is ideal for use in production/warehouse areas, as well as mining and tunnels.

**BradyGlo™ Material
Lasts 10+ Hours With
5 Minutes Charge!!**

GLOW-IN-THE-DARK SELF-STICK POLYESTER (B-324)

SURVEILLANCE CAMERA SIGNS

These signs provide a highly visible warning to thieves, shoplifters, criminals and vandals - an ideal deterrent for all areas of your facility. Use in areas where covert cameras are not easily visible. They form an integral part of your security system whilst reassuring customers, visitors and employees. Choose from three materials to suit your specific requirements; self-adhesive vinyl, polypropylene or metal.

NOTICE SIGNS

NOTICE

All equipment, machines and processes shall be locked out prior to servicing. Lockout procedures are posted in the operating area and/or by the main energy source of each machine. If you have any questions about the lockout procedures, please see your supervisor or the Safety Director. This standard will be strictly enforced.

HIGH VISIBILITY SIGN BORDERS

NEW

- Borders In 3M™ Diamond Grade™ Reflective Lime Or Orange
- Outstanding Sign Visibility
- Available To Suit Standard Sized Metal Signs

Add a border to your sign for extra visibility day and night. Diamond Grade™ reflective borders are available in either Lime or Orange and can be applied to the outside of any 300 x 450mm, 450 x 600mm or 600 x 900mm steel sign. Border is 25mm wide for 300 x 450mm signs, and 50mm wide for 450 x 600mm and 600 x 900mm signs.

300 x 450mm Sign = 350 x 500mm with border

450 x 600mm Sign = 550 x 700mm with border

600 x 900mm Sign = 700 x 1000mm with border

Makes your sign and message more visible both day and night.

STANDARD PACKAGE: 1

Part No.	Suit Sign Size	Hi-Vis Border	Overall Size	\$

SEMI-CUSTOM FLOOR MARKING AND PPE REQUIREMENT SIGNS

NEW

- Customise To Suit The Location's Access And PPE Requirements
- Choose From 4-6 Floor Marking Colours And Messages, And 1-3 PPE Requirements
- Fully Customisable Colours And Text

Clearly communicate your company's access, walkway and PPE requirements to staff and visitors alike. Add colours and messages corresponding to your floormarking to ensure adherence to pedestrian walkways, and warn of shared areas. Include PPE requirements for the area that is being entered. Fully customisable means that specific signs can be created for multiple areas if required. Signs are 600 x 900mm for extra visibility, in a choice of metal or polypropylene.

MULTI MESSAGE SIGN FRAMES AND SWING STANDS

- Multi message sign stands allow display of multiple messages at once and can be easily relocated to the point of use.
- Two 600 x 600mm sized signs and one 300 x 1200mm sign can be used.
- The robust steel black multi message frame requires the legs attached (available for purchase separately) for optimum usage. The galvanised swing stand construction is durable and suits a range of sign sizes.

STANDARD PACKAGE: 1

Part No.	Description	B
875896	Multi-Message Frame w/ 300 x 1200 and 600 x 1200mm Slots	
875897	Multi-Message Frame w/ 900 x 600mm Slots	
875898	Multi-Message Frame Legs

PREMIUM BRAILLE SIGNS

NEW

This range of Premium Braille Signs are perfect for more up-market applications. The Acrylic Braille range of signs are manufactured from top of the range textured acrylic backing and are suitable for both external and internal applications. The Anodised Aluminium Braille Signs are manufactured using a process that imbeds the icons, characters and text into the anodised surface. These signs are scratch and graffiti resistant. All signs are supplied complete with adhesive backings for easy mounting.

BRADY QUICK ENGRAVE SIGNS

Communicate all your important messages with effective and durable engraved signs from Brady. Each custom sign is manufactured from a vast range of materials to the highest quality standards. Ideal for use in enhancing or office space and for the identification of industrial and electrical equipment, giving a professional and consistent look throughout your facility. Engraved signs are highly visible and are essential for long-term durability in harsh industrial environments.

APPLICATIONS

Electrical/Industrial Signs

- Switch Plates
- Distribution Boards
- Manufacturing/Maintenance Details
- Machine Instructions
- Company Details

Office Engraved Signs

- Desk Signs
- Name Badges
- Commemorative Plaques
- Door Signs
- Directory Board Strips

Reverse Engraved

Sleek and glossy signage that will brighten up your interior and exterior. Reverse engraved is ideal for back painting, or giving a three dimensional appearance. The glossy surface is vandal resistant. Signs come with self-adhesive backing, for easy fixing. If custom pictos are required please supply camera-ready artwork.

Texture Engraved

Ideal for detailed engraving; it is extremely durable and resistant to fingerprints, smudging and stands up to difficult environments. Ideal for interior or exterior signage.

Brady custom makes your engraved sign on-site giving you durable, professional signs fast!

Materials Guide

Material	Description	Application	Thickness	Environment	Finish
Standard	For standard engraving	Industrial Identification, Switchboard	1.6mm	Indoor	Matte
Interior	For fine, intricate, detailed engraving	Interior Signage, Badges, Suitable for logos	1.6mm	Indoor	Matte
Metallic Plastic	Plastic that looks like metal	Badges, Plaques	1.6mm	Indoor	Matte
Outdoor	Designed for sub-surface engraving	Outdoor signage – UV & chemical resistant	1.6mm	Outdoor	Gloss
Foil	Adhesive backed, flexible – conforms to curves and irregular shaped surfaces	Industrial strength permanently engraved label	0.2mm	Indoor/Outdoor	Matte

*Brady recommends Engraved Signs be applied to a clean, dry, smooth surface for maximum hold.

CUSTOM ENGRAVED NAME BADGES

Custom Name Badges not only give your office a professional look, they help identify unwanted visitors to your facility. Badges can be engraved in most colours to suit your corporate image, and logos can also be added for an even more professional look and feel. Your choice of either pin or clip. Magnetic clothing attachments are also available. Ideal for trade shows or corporate events.

75mm x 25mm

80mm x 30mm

CUSTOM SIGNS

HOW TO ORDER YOUR CUSTOM SIGNS

1. MATERIAL, SIZE AND FORMAT

Refer to the Standard AS 1319 to help decide what size best suits your application - refer to page 23 as a guide for the viewing distance. For detail on the materials, please refer to page 24. See selections on page 92.

2. COLOUR AND LAYOUT

Depending on the purpose of your sign, the message will determine the colours to suit the application. Refer to page 23 as a guide to assist you in determining the header/colour of your sign. We have included a range of standard headers to help make it easier for you. See selections on page 92.

3. LEGEND TEXT

All text will be printed in capital letters, with a character limit of 100. Please specify font size if complying to a particular standard.

4. PICTOGRAM

Pictograms are used to convey a stronger message by using diagrams. We have a range of pictograms that can be used for your custom signs. Simply flick through the catalogue and note down the part number where the pictogram is used - if your picto cannot be found, leave a description or send it to brady_aust@bradycorp.com.

5. QUANTITY

For pricing please contact your Brady Distributor or our Customer Service Team.

6. SPECIAL LOGOS & ARTWORK

To incorporate a logo or a special image to your custom sign, please fax a rough sketch or email a print-ready artwork. Additional charges may apply if artwork is not sent as print-ready.

7. OPTIONS

If reflective, or any other options are required, please indicate all the added options for your custom signs. For more information regarding the options, please refer to the sign material guide on page 18. Options will vary in price, please contact your Brady Distributor or our Customer Service Team for more information.

8. NOTE

As this is a custom sign, we cannot state that our custom signs will comply to any particular Standards as the wording, pictos, colours, etc. have been supplied by yourself. It is your responsibility to ensure that your designed sign complies to the Standard.

CUSTOM SAFETY SIGNS MADE TO ORDER

1. CHOOSE MATERIAL AND SIZE (Tick appropriate material and size below ☒) NOTE: One sign per form

Format	Size	Material
☐ Landscape	☐ 90 x 125mm	☐ Metal

STEEL PICKET AND POST DRIVER

The Stainless Steel pickets are tri-pronged and ideal for use with signage. Overall length is 1650mm. Post Drivers allow easy installation of pickets without digging holes. The driver includes 2 handles and is constructed of heavy duty steel with a black finish. The post driver is 762mm long and 102mm in diameter.

STANDARD PACKAGE: PACK/10 (PICKET), EACH (DRIVER)

Part No.	Description	B
873801	Stainless Steel Picket Pk/10	
873802	Post Driver	

SIGN MOUNTING FOAM TAPE

Foam tape ideal for most mounting applications. External tape is suitable for temperatures between -40°C to 120°C and the internal tape is ideal for temperatures between -10°C to 66°C.

STANDARD PACKAGE: 1 ROLL

Part No.	Description	Dimensions	B
852583	External Application	12mm x 66m	
852584	Internal Application	12mm x 33m	
852585	Internal Application	24mm x 33m	

POLYTOP® SIGN FIXING SCREWS

Neat and unobtrusive fixing for all signs. Polytop® screws are quick and easy to use, suitable for indoors and outdoors.

Part No.	Description	B
850848	Polytop® Socket Drive Screws - Pk 50 - White	
850849	Polytop® Socket Drive Screws - Pk 50 - Red	
850851	Polytop® Socket Drive Screws - Pk 50 - Green	
850852	Polytop® Screwdriver & 12 Point Bi-Hex Socket Bit	

ROUND SIGN POSTS WITH BASE

NEW

- Steel Tubular Sign Posts With Base Attached
- 60mm Outside Diameter

Posts are ideal for mounting street signs without the need to put the post into the ground. Mount regular traffic signs using the sign mounting brackets. Post, Base and Cap included. Requires 4 dynabolts for mounting on concrete or asphalt surfaces.

STANDARD PACKAGE: 1

Part No.	Description	B
875951	3.2m Post w/ Base	
875952	2.4m Post w/ Base	

TEMPORARY SIGN HOLDER

Injection moulded Temporary Sign Holders are perfect for erecting a temporary sign where it can be easily seen by all. Holder accepts a 450 x 300mm sign, and they can be interchanged easily. Can hold 5mm thick corflute and measure 700 x 480mm.

STANDARD PACKAGE: 1

Part No.	Colour	B
845600	Blue	
845598	Black	

SECURITY SIGN FIXING KIT

Tamperproof screws are used to avoid unauthorised tampering and vandalism of signs. Once the screws are fastened, they cannot be undone with a conventional screwdriver.

Kit Contents:
4 x Stainless Steel Security Screws
4 x Plugs
1 x Hex Drive Tool

STANDARD PACKAGE: PACK OF 4

Part No.	Description	B
846066	Security Sign Fixing Kit	

SIGN MOUNTING BRACKETS

Use Sign Mounting Brackets to secure traffic signs to tubular sign posts up to 60mm in diameter. Brackets transform existing tubular sign posts into multi-purpose posts. Choose from brackets to suit one or two signs, or a two-piece bracket for easy addition of signs to an existing sign post.

STANDARD PACKAGE: 1

Part No.	To Fit	B
873803	1 Sign Bracket	
873804	1 Sign 2 Piece Bracket	
873805	2 Sign Bracket	

Turns a round street sign post into a multi-purpose post.

SIGN BACKING FRAMES

Part No.	Height	Description	B
873806	1200mm	Suits 300mm Sign	
873807	1200mm	Suits 450mm Sign	
873808	1200mm	Suits 600mm Sign	

Part No.	Dimensions	B
873809	1200 x 900mm	
873810	1800 x 900mm	
873811	1800 x 1200mm	
873812	2400 x 900mm	
873813	2400 x 1200mm	

Can be supplied with sign fitted.

Part No.	Dimensions	B
873814	900 x 600mm	
873815	1200 x 900mm	
873816	1500 x 900mm	

Post length is 3.05 metres.
Can be supplied with sign fitted.

REVERSE FOLD 'A' FRAME

Reverse Fold 'A' Frame protects signs when closed. Galvanised and welded for heavy duty applications. Sign faces one or both sides.

Part No.	Dimensions	B
870891	450 x 300mm	
870970	600 x 450mm	
873432	900 x 600mm	

Will take one or two signs.

873432 'A' frame shown with sign and magnetic base mini strobe light attached (not included).

PORTRAIT REVERSE FOLD 'A' FRAME

Lightweight, with same sturdy reliability as heavy duty 'A' frame above. Only stands 500mm high from the ground and sign faces one or both sides. Suits 450 x 600mm signs.

Part No.	Dimension	B
873817	450 x 600mm	

MINI REVERSE FOLD 'A' FRAME

Ideal for portability. Protects sign face when closed. Suits 450 x 300mm signs.

Part No.	Dimension	B
873818	450 x 300mm
